RE: Construction Water Availability

Mr. Morhig,

The City of Adelanto is in the process of activating our production well 8A, located on the site of the Mavericks Stadium, 12000 Stadium Way Adelanto Ca 92301. Well 8A is a non potable well due levels of arsnic that exceed the state maximum for potable useage. This water from this well is being designated for construction usage and non-potable usage. The current demand in the City for this non-potable water is below the production ability of the well and the city anticipates there to be a surplus available.

For more infromation regarding the availability of this water please contact the following individuals.

Tom Thornton
City Engineer City of Adelanto
760-246-2300 ext 3025
tthornton@ci.adelanto.ca.us

Rich Buday
Water Superintendent
Adelanto Water
