

1-5 SECTION HATCHING

Do not show the sand and aggregate in any concrete section

Section of timber or lumber

End view of timber or lumber

Cross hatch metal in large scale (1/2" = 1'-0" or more) when two or more pieces are shown. Hatch alternate direction on pieces to clearly define limits

Avoid shading lines on rounded or sloping surfaces. When needed to clarify a detail, space the shading lines a minimum of 1/16"

A section or view defines the shape more clearly than shading
