Professional Highlights

Lisa Randall is the Planning Team Leader in Lakewood, CO. The FHWA Resource Center based practice and enhances transportation decision-making through training, technical assistance and technology/innovation deployment. In her capacity at FHWA, Ms. Randall works closely with and in support of the FHWA Office of Planning and the FHWA Office of Freight Management and Operations in Washington, DC. She leads a national, virtual team of ten planning experts who provide assistance to State DOTs, MPOs and FHWA Division Offices in a wide variety of planning areas. Some of the current areas of priority focus include: SAFETEA-LU planning implementation, fiscal constraint, freight, land use, congestion management processes and modeling.

Lisa is a committee member with the Transportation Research Board. She also is a Senior Fellow with the Council for Excellence in Government. She entered federal service as a Presidential Management Fellow, and has a BA from the University of Denver and a MA from Tufts University.
