Dear Mr. Johnson

Please join Caltrans and staff from Solano Transit Authority, San Joaquin Council of Governments and other local agencies, for the first in a series of public open houses for the SR 12 Comprehensive Corridor Study. Your attendance is appreciated.

As you know, SR-12 supports interregional, recreational, commuter, agricultural and military traffic between the Bay Area and the San Joaquin Valley. SR-12 is important for recreational travelers destined for Napa, Solano and Sonoma Counties as well as the Delta. It also serves as a commute corridor and a significant interregional goods movement corridor because of its direct access to I-80, I-5 and Travis Air Force Base.

The goal of the study process is to develop a multi-jurisdictional corridor management plan that includes stakeholder input and consensus on a set of near- and long-term improvement strategies for SR-12. This plan will build upon and update existing studies for the SR-12 corridor and incorporate the most recent transportation forecasts based upon current land use plans for each of the counties located along the corridor.

As a stakeholder in the corridor, your participation and input are greatly valued.
